Experience

Software Contractor

Remote   *November 2018 – Current*

- Multiple contracts working with many different stacks. Primarily React as a frontend, and many backend technologies such as Node, .NET, Java and PHP.
- With St. Louis County, introduced automated testing to legacy codebases by setting up and writing unit tests for .NET backends as well as E2E and accessibility testing for React frontends.
- At Proagrica, I worked with a highly dynamic farming dashboard for an international audience.
- With the EPA, I helped rebuild Emissions Collection and Monitoring System (ECMPS) for reporting emission data with NodeJS and NestJS.

OTR Driver

Roehl Transport   *Dec 2018 – Aug 2019*

- Check vehicle to ensure that mechanical, safety and emergency equipment is in good working order.
- Maneuver truck into loading or unloading positions, following signals from loading crew and checking that vehicle and loading equipment are properly positioned.
- Maintain logs of working hours or of vehicle service or repair status, following applicable state and federal regulations.
- Report vehicle defects, accidents, traffic violations, or damage to the vehicle.

Delivery Driver

Peoples Linen Rental, Keene, NH   *Nov 2016 – Nov 2018*

- Load and unload truck.
- Verify the contents of inventory loads against shipping papers.
- Report delays, accidents, or other traffic and transpiration situations to bases or other vehicles.
- Obey traffic laws and follow established traffic and transportation procedures.

Delivery Driver

Crossroads Pizza & Subs, Fitzwilliam, NH   *May 2015 – Nov 2016*

- Inspected and delivered outgoing food deliveries.
- Independently solved customer issues on site with food or delivery times.
- Performed tasks such as washing dishes, cleaning floors and counters, organizing and maintaining food stock.
- Inventoried stock and received incoming food orders.

Signal Systems Support Specialist

U.S. Army

- Responsible for installation, operation and maintenance of radio and data distribution systems; ensured all orders were completed on time and met U.S. Army standards.
- Technical assistance and training for local area networks and routers, signal communications and offering support for satellite radio and communications equipment functions. Installed, maintained and conducted troubleshooting measures on terminal devices.
- Operated and performed proactive preventive maintenance checks and services on assigned vehicles and power generators.
